Forward-Looking Statements

Certain information set forth in this presentation, including information and statements which may contain words such as "could", "plans", "should", "anticipates", "expects", "believes", "will" and similar expressions and statements relating to matters that are not historical facts, contain forward-looking statements, including but not limited to statements regarding: the Arrangement and the anticipated timing of closing; the accrued consideration for the debentures on closing; the expected benefits of the Arrangement; and the potential consequences for Twin Butte securityholders if the Arrangement is not completed (including any action by the lenders). By their nature, forward-looking statements are subject to numerous risks and uncertainties, some of which are beyond Twin Butte's control. Completion of the Arrangement is subject to a number of conditions which are typical for transactions of this nature. Failure to satisfy any of these conditions, the emergence of a superior proposal or the failure to obtain approval of Twin Butte's shareholders or debentureholders may result in the termination of the Arrangement. The foregoing list is not exhaustive. Additional information on these and other risks that could affect completion of the Arrangement will be set forth in the information circular, which will be available on SEDAR at www.sedar.com. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking statements. The actual results, performance or achievement of Twin Butte could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what benefits that Twin Butte will derive therefrom. Twin Butte disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable securities laws.
